

CI OFFICE

Yellow Belt Certification

Lean Six Sigma Training
USA Region

As part of our Continuous Improvement initiative, the CI office has set a target to certify all Argos USA salaried employees as Lean Six Sigma Yellow Belts.

Yellow Belt training is delivered in a 3.5-hour session (in-person or virtual) designed to expose individuals to the concepts of Lean Six Sigma and enable them to further engage in continuous improvement initiatives.

Today we want to remind all Manager about the importance of having all their team members certify, especially all New hires. Tell your teams to be on the lookout for a training invitation sent to their inbox if they have not been certified!

Any questions can be directed to Natalia Jaramillo (njaramillo@argos-us.com) who will be coordinating training sessions and logistics on behalf of the CI Office.
