**THIS BRIDGE IS CONSIDERED ONE OF THE MOST IMPORTANT
ENGINEERING WORKS IN PROGRESS IN EUROPE.**

It's estimated that more than

15.000

VEHICLES WILL CIRCULATE

daily once the infrastructure is inaugurated. This will significantly improve the connectivity of the region, which has a constantly growing population.

We are profoundly honored to have been chosen as a strategic partner of our client Société Guyanaise Rapid Béton (part of the Audemard Group) to jointly realize one of the most important projects in French Guiana, the construction of the new Larivot Bridge. We are confident that this project will significantly impact the progress of the territory and the communities surrounding it

RICARDO HOLLANDER
CEO of Argos French Guiana.

GARY DE LA ROSA
General Manager of Argos Caribbean.

The company's participation in the project is a privilege and reflects our commitment to constructing high-impact works that prioritize sustainable development in the region. At the same time, the project has presented operational challenges due to the demanding formulation and quality characteristics required for the product. We reiterate our firmness and conviction in our contribution based on the experience, knowledge, and passion of our team to make this mega-project a resounding success and become a concrete step to continue building the future we dream of
