

# WHAT A PRIDE!

**ARGOS PUERTO RICO HAS *RECEIVED SAFETY AWARD* FROM THE PORTLAND CEMENT ASSOCIATION FOR THE THIRD YEAR IN A ROW**

Among nearly 100 cement plants in the United States and its territories, our Dorado Plant in Puerto Rico received the Chairman's Safety Award from the Portland Cement Association (PCA) **for our outstanding safety performance** in the production of Portland cement, the main ingredient in all forms of concrete.

*This award is a clear reflection of the culture of prevention that we have cultivated in our company, where safety is not only a priority, but a fundamental **value that impacts everything we do**. It also reminds us of the importance of maintaining a safe and healthy work environment where each individual feels valued and empowered to actively contribute to the continuous improvement of our safety practices.*

**José Guillermo Araujo**, General Manager Argos Puerto Rico.

*We are extremely proud to be a leader in health and safety. We work to ensure that our core principles of these pillars extend beyond our facilities, with our families and communities, to build a more reliable and sustainable world.*

**Nelson Rivera Centeno**, Health and Safety Coordinator at Argos Puerto Rico.

This recognition translates, among other milestones, into the achievement of **1,500 days without incapacitating injuries** in the area, which reaffirms the effectiveness of our preventive measures in our facilities.

**MAY THIS RECOGNITION BE AN INSPIRATION FOR ALL OF US TO CONTINUE TAKING CARE OF EACH OTHER AND THUS ACHIEVE MORE GREEN DAYS.**

**WE ARE GREEN LIGHT,  
WE ARE CARIBBEAN!**
